Plastic Drain Pipe Cutter Cut, deburr and bevel thin-walled plastic pipe in only 1 step!

The **RIDGID® P-TEC 3240** is the first cutter of its kind that provides the hassle free ability to perform a clean, fast and straight cut on plastic drain pipe. P-TEC 3240 can be used on thin-walled PVC, PP and PE tubing of two standard sizes: 32 and 40 mm.

P-TEC 3240 allows the user to cut drain tubing 4x faster and cleaner than a hacksaw . There is no need for a second tool to deburr / bevel as this is automatically done parallel to the cutting.

Product	RIDGID® P-TEC 3240
RIDGID cat. no.	37463
Weight.....	0,59 kg
Capacity.....	32 & 40 mm only
Wall-thickness	< 2,5 mm
Intended materials	PVC / PE / PP
Cutting Performance	6 rotations (avg)
